datsphy

Organizations managing sensitive data need to drive business decisions through risk metrics and risk assessments.

The cost of a data breach is a function of lost time to discovery – the faster the detection and blocking, the faster the recovery of losses.

Datiphy's Risk Assesment Report

- Obtain a Datiphy risk report to evaluate current risk liabilities
- Prioritize risk exposures through tangible metrics and actionable alerts
- Incite risk tolerance to accurately gauge cyber insurance needs and risk requirements.
- Enable real-time risk assessments from where it counts the most the data!
